gTalk[®] PBX Service

User manual

Over-the-Phone Secure Credit Card Payment Processing System

Introduction: gTalk[®] PBX service includes, as an optional add-on service, a PSI-DSS compliant over the phone credit card payment processing system. It allows a caller to enter sensitive credit card information for payments using phone keypad without having to disclose it verbally to the agent of the party accepting the payment. The instruction to use the system is provided below:

Login to PBX User Panel

Go to **www.gtalkpbx.com**. Click on **Login** (top right corner) to open the below window:

In the **Extension User Login** box click on the Green button **Log In** (Fig. 1) which will open a new window as shown below (Fig 2):

Step 3: Select product and reference ID, if any (Fig 5)

Fig. 5 ☆ 🛞 🕐 🛛 🔁 🗄 🗰 Apps 🛞 Questcare - Patient P 🍵 🔞 Barack Obama 400+ 👘 🐘 📋 gTalk/PBX_Root 🎦 gTalk/PBX_Old 👟 Google Earth 😗 Free Carrier Lookup - 🤮 Barack Obama 400+ 👘 » 📔 Other bookmarks **Q**Jalk ≡ 😡 (214) 593-1004 🔵 Genusys Inc(506) 🗸 🔺 User v x PAYMENT FORM Credit Card Processing < 🖃 Payment Select Product gTalk Pinless Select the product v Payment Log Write refernce ID (if any) Reference ID Reference ID Manual Input Mode His option appears on management approval

Step 4:

(a) Enter card holder's name.

(i) **Entered Card Number is Valid:** the system will be ready to accept CVV code indicated by the appearance of a circular blue spot on the LHS of the CVV window.

(ii) **Entered card Number is Invalid:** It will be indicated by appearance of Red warning signs (A red Arrow pointing the window, the words Card Number* turning red , and the card number window assuming a Red outline (Fig 7). In such a case click **Reset** button or RHS of the window and ask the caller to reenter card number.

(c) On entry of valid card number, ask the caller to enter the card's CVV code.

(d) Ask caller for card expiration date, zip code, and amount. Enter those in the designated slots.

(e) Click on the button **Process Payment**. If all information entered is correct and the card is not toped up, the payment will be processed and confirmation of that will be made through a pop up window. Fig 6.

4 b. Manual Entry of Card Number:

Some customers may find it difficult or make repeated mistakes in keying in their credit card information using phone keypad. In such cases credit card information may be entered by the agent manually ONLY if the agent has been granted such privilege by his/her manager. Ask your manager to grant such privilege, if needed.

4. c. Manual Card Information Collection Process

(i) If you are on a payment session then click **Start Over** button to revert back to new payment session opening page.

(ii) In the payment session opening page click on the 'Manual Input button' and then click Start Session (Fig. 9).

- (iii) To **STOP** Voice Recording: Enter **#9** (within 2 seconds) on Agents IP phone set
- (iv) Ask for card information, enter into the windows and process payment.
- (v) Once payment is processed RESUME Voice Recording by entering #7 (within 2 seconds) on IP phone set.
